

WET[®]

WASHING EQUIPMENT OF TEXAS

**CLUTCH
CONTROL**

TITAN I

The **Titan I** is configured to favor more gallons per minute while providing good pressure. This unit is great for washing heavy equipment, for example. The higher GPM will speed up hot soapy water coverage quickly and rinse just as quickly. The 2300-psi is more than adequate for penetrating mud on tracked equipment. The **Titan I** is also a strong in-plant, or meat processing plant cleaning system.

Clutch Control prohibits the pump from overheating when the trigger is not pulled. Other pressure washers recirculate the bypass water through the pump again and again. Each time through the pump the water temperature increases dramatically until it reaches the critical temperature of 145°F in less than a minute.

The **Titan I** operates differently since the clutch disengages the pump and brings it to an immediate stop. The motor free-wheels until the trigger is pulled again. Neither pump nor motor are under load when the trigger is released. This advancement alone will greatly reduce downtime and cost of ownership.

Combining **Clutch Control** with lots of Stainless Steel, the best safety controls, a rugged 1-¼" square tubing frame, and industrial components and you have the **Titan I**... inexpensive to own and a pleasure to use.

The Titan I is high on quality

The Titan I is feature rich

The Titan I is ready for tough duty

Specifications:

- + 5-gpm @ 2300-psi
- + 8-hp Baldor motor
- + 230-volt, 1-phase, 30-amps
- + ETL Safety Certified to UL std
- + General pump
- + Belt-driven
- + **Clutch Control**
- + SS panels & coil wrap
- + SS float tank
- + GFCI
- + 50' hi-pressure hose
- + SS Variable pressure wand & trigger gun
- + Magnetic motor starter
- + Time-delay shutdown
- + Electronic ignition
- + Draft diverter
- + 440,000 BTUs, natural gas
- + 56"L x 24"W x 55"H
- + 848 lbs

WET[®]

WASHING EQUIPMENT OF TEXAS

WET offers a wide variety of industrial cleaning compounds:

- ✚ Degreasers
- ✚ Vehicle wash
- ✚ Floor cleaning detergents
- ✚ Automatic parts washer detergents
- ✚ Aluminum brighteners
- ✚ Defoamers
- ✚ Detergents especially formulated for wash water recycling systems

WET offers preventive maintenance programs for high volume detergent customers saving delivery fees, reduced labor charges, and even parts discounts in return for their business

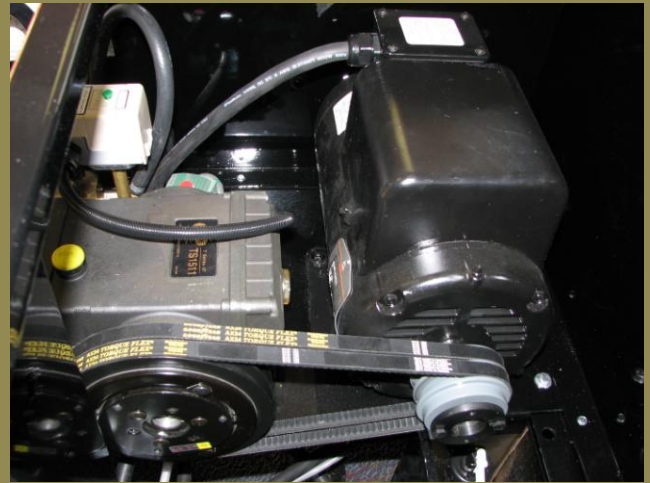

WET offers detergents in bulk volume where we provide the 300-gallon storage tank:

- ✚ No (55) gallon drums
- ✚ Bulk volume pricing
- ✚ Industrial strength concentrates

WET supplies their customers using the bulk detergent program with a free loaner pressure washer when their machine is down.

We value our customers, and we hope it shows!

*You can't get clean if
you don't get **WET!***
