

PROUDLY BUILT IN THE USA

FACTORY CAT

MODEL 34
MODEL TR
SWEEPERS

FAMILY OF INDUSTRIAL CLEANING EQUIPMENT (21" - 55")

BUILT FOR INDUSTRIAL CLEANING

Factory Cat's sweepers are built to sweep factories: dirt, dust, metal shavings, foundry sand, bolts, paper, wood, whatever there is. **Factory Cats** are **compact**, not light-duty.

These machines are **all-steel**, and use oversized components throughout. At your in-plant inspection, you'll see top quality componentry, hefty fabrications, oversized motors, and nearly 100% stainless steel fasteners.

Factory Cat's side brooms pick up dirt in the corners. A huge tubular main broom under the machine sweeps up the dirt and debris from the floor and packs it into the steel hopper.

Meanwhile, the second stage vacuums up the dust and traps it in a polypropylene felt "baghouse" filter. **Factory Cats** can pick up whole bags of cement at a time without leaving a trace of dust behind. The filter is cleaned by an on-board mechanism, and in most cases will last the life of the machine.

Factory Cat's "Central Command" energy management system gives our silent, **electric** rider sweepers the power formerly available from only gasoline or propane-powered machines.

The TR is the most powerful compact battery-powered sweeper and can run a full shift on a charge.

MAKES YOU MONEY FROM DAY ONE

Few production machines can save you as much as a **Factory Cat** sweeper. If you do not now use a power sweeper, **Model TR will cut your labor costs for sweeping by a factor of ten or more.**

These direct labor savings permit tremendous economy, even in small plants. The Model TR can sweep up to 350,000 sq. ft. in one shift, and on a single charge.

Factory Cat TR rider is priced much lower than you think – less than many walk-behind machines, and a fraction of the cost of most other riders.

SPECIALISTS NOT NEEDED

Factory Cats could not be much simpler to operate. Controls are smooth and simple, and maintenance is a snap; just put the machine on charge after every shift. No oil to change, brooms to reverse, fuel to spill, tanks to exchange, valves to grind.

TEST SWEEP - NO COST OR OBLIGATION

Why not have your people try cleaning your plant with a Model 34 or TR? It's free, and there's no obligation. Call us at **800-634-4060** to set up a demonstration that is convenient for you.

SOLD THROUGH DEALERS

We've built our reputation by providing the toughest, best-engineered, highest-value machines our industry can produce. We make sure that in every market in which our more than 350 distributors in 36 countries and service centers do business, they maintain a "factory" trained service department with a vested interest in our customers long-term satisfaction.

Factory Cat offers a line of cleaning equipment that includes sweepers and scrubbers, in both walk-behind and ride on models. All our models are practical, rugged machines that are sensibly priced. Your local dealer will be happy to assist you with rentals, soap, and floor sealer information. They will gladly provide service on all brands of cleaning equipment.

GUARANTEED SERVICE

We guarantee to supply you with the spare parts you need within three work days — or they're yours free. This guarantee applies only to the 48 contiguous states of the United States, at the customer's special request, and to parts that can be shipped by courier.
